SUBJECT: Dr. Kissinger's Debrief of Moscow Discussions on SALT

25X1

File NIO [redacted]

1. At your meeting this morning you announced that Dr. Kissinger was amenable to debriefing on some of his discussions in Moscow. You indicated that you would be pleased to have up to three personnel join you.

2. After discussions with Ed Proctor, we agree that it should be Howie Stoertz, [redacted] and [redacted] Rationale is that Howie is our deep man on SALT, [redacted] the SALT Support Staff chief knows the real issues involved and [redacted] should the conversation hopefully extend beyond SALT itself, would be the man most broadly interested and most capable of seeing that others are advised. (very few of course)

3. We will stand by for further word from you.
